

Access to Mainship Bill of Materials & Part Info

For owners of late model Mainship 34Trawlers I have spent some time and believe I have a scheme to allow sharing of the searchable **MS Bill of Materials document** and the related **parts info & photos**.

It's unfortunate but Marlow – Mainship used to have this and a whole lot more MS info available online but for some reason chose to take it down and prevent prior MS owners from accessing so very worthwhile info.

If interested read on...

First I'd like to acknowledge and thank Dave Anderer – a fellow MS owner and TFER that has assisted me with gaining access to the info files... Thanks Dave

1. To access this info first go to my [Bacchus](#) website available here or from my signature on any of my TF Posts
2. On the Home Page under **"Maintenance & Parts"** you will find buttons for

2.1. MS 34T Bill of Mat'ls

The MS 34T Bill of Mat'ls button will download a MSWord.Doc for the BOM. You can open the Doc, enable editing and save it to your local drive

Using the "FIND" function (top right on menu bar) you can enter a search term and search the Doc for applicable parts

If the part has a Blue Highlighted Item # there should be a Part Photo providing more vendor / part info and a photo of the part

2.2. MS 34T BOM Photos

The MS 34 BOM Photos button will open a linked DropBox file containing the applicable part and vendor info

The part photos are sorted in numerical order – simply scroll down to find the part # for the part you are looking for.

If you find this info useful drop me a PM
