

Access to Mainship, Luhrs & Hunter Part Info

The following is a way for owners of late model year Mainship models to search for part info. Note these files also contain parts used on Luhrs power boats and Hunter sail boats prior to the buy-out by Marlow Yachts.

Note: If you are looking for part info for a late model year MS 34T go back to the [Bacchus Home Page](#) and use the MS 34T BOM & Photo Links under the Maintenance & Part Info Heading

If interested read on...

It's unfortunate but Marlow – Mainship used to have this and more available online but for some reason chose to take it down and prevent prior MS, Luhrs & Hunter owners from accessing some very worthwhile info.

First I'd like to acknowledge and thank Dave Anderer – a fellow MS owner and Tfer that has assisted me with gaining access to the info files... Thanks Dave

The following links are for large files of individual part photos with vendor & part # info. I have split the huge file into two files to enable loading the file in a reasonable time.

Users will only have the ability to scan the file to find parts that appear to match those they are seeking info on.

Hint: Set your view to "Extra Large Icons" and you can click on a photo to view a preview without the need to open every photo file.

1. [Part #'s < 1010999](#)

2. [Part #'s > 1011000](#)

If anyone has BOM's for other MS Models and can send them to me I will add them to the links to facilitate sharing the with others

You can email me at: **eMailBacchus@stny.rr.com**
